A customized, cost effective solution to property relocation.

# Getting to know Dreammove

Dreammove is an independently owned Manchester based company, with a number of experienced property relocation consultants located throughout the Midlands and the North of England. All our operating consultants have numerous years experience within the property and relocation industry and have worked in assisting the relocation of numerous multinational clients.

Dreammove offers a comprehensive relocation and management package to both businesses and individuals alike. We identify that each and every relocation need for both people and companies is unique and due to this each package is customised to suit the client's needs.

Dreammove searches and procures the whole spectrum of properties throughout England via our contacts and networks established over numerous years. Our aim is not just to meet your expectations but to exceed them through our professional service with a local feel.

A customized, cost effective solution to property relocation.

# Services

## Customised property solutions

Relocating either yourself or having the responsibility of relocating your employees is highly stressful and time consuming. In addition to this, there are often unforeseen costs and unplanned elements of relocating which can often be forgotten resulting in a large amount of stress.

Dreammove can prevent this and turn the stress of relocation into an exciting and adventurous new chapter in your life. The complete relocation package is taken care of for you from the procurement of suitable properties and negotiating preferential lease terms, to carrying out an inventory of the property and familiarising the client with the property and the area on the day of the move.

## Cost saving technique

Allowing the professionals to take care of the relocation process for you will ensure that all costs are accounted for and are clearly highlighted to the guest at the initial stages of consultation.

This is particularly true for business employees on secondments where the company could potentially **save between 40% - 70%** per serviced accommodation when compared to a hotel. In addition to this the standard of the property is generally better than that of a hotel room, giving the client a more comfortable, relaxing atmosphere of a new home rather than an impersonal hotel room.

## Personalized extras

Dreammove understands that relocating and settling into your new property and location is difficult, particularly in the early stages. Due to this all our consultants meet the client on the move in day and provide them with the relevant information on their new area along with the local facilities and entertainment available.

Dreammove also recognises that the client will often be very busy with work commitments and due to this a full cleaning and linen package of the apartment is available as well as multiple other services also.

A customized, cost effective solution to property relocation.

# Why choose Dreammove?

- ✓ **Location specific**  
All our consultants are local to the specific area the client is looking to relocate, and have a detailed knowledge and an extensive network of property professionals.
- ✓ **Transparent pricing procedure**  
Our pricing is clearly defined from the initial phases of correspondence and continues to be throughout the process to allow the client to be in control of their costs at all times.
- ✓ **Customisation**  
Each relocation package is moulded to the needs and expectations of the client. Dreammove provides package suggestions to simplify the whole relocation process but elements of each of these packages can be added or removed easily.
- ✓ **Reduced Stress**  
The process is managed from start to finish with minimal interruption to the clients work or personal life. Upon a clear understanding of the client's needs and expectations the whole process is made simple for them due to the expertise of our consultants.
- ✓ **Aftercare team**  
Our team will follow up with the client on the successful relocation to offer any further assistance they may require to settle into the new property and/or location.
